

# Operator-Assisted Conferencing

## DELIVER YOUR MESSAGE WITH CONFIDENCE

For your most important meetings, CONFERSAVE's suite of operator-assisted solutions provides the event management expertise, technological innovation and guaranteed security you need to deliver your message with confidence. Whether you're communicating to employees, investors or customers, CONFERSAVE can accommodate your business needs with a level of professionalism unmatched in the industry .

### The ConferSave Advantage: Professional Meetings Every Time

CONFERSAVE offers three levels of service for you to choose from: Event, Auditorium and Connection, combining features and services to create unique solutions for your most important engagements.

All service levels include an experienced conferencing expert to help you plan and conduct successful conferences. With your goals and meeting scope in mind, that expert arranges reservations, coordinates specialists for enhanced services and ensures delivery of post-conference reports and recordings.

### Our Experts Focus on Your Goals

CONFERSAVE offers a full range of professional assistance, including a dedicated Event Manager and skilled operators. These experts undergo months of intensive training, specialized courses and ongoing assessment to provide you the most professional service in the business.

**Security & Reliability:** From the latest encryption technology and industry-leading conference security features, to an advanced fault-tolerant and redundant architecture, CONFERSAVE Conference Call Services delivers some of the highest levels of security screening in the industry.

### A Better Way to Present Information and Ideas

CONFERSAVE allows you to select the best solution to meet your specific goals, whether you're announcing quarterly earnings to investors, conducting focus groups or training sessions, holding press conferences, launching a new product or making a company-wide announcement. For your image-impacting events, choose CONFERSAVE Conference Call Services, the provider companies count on when communication really matters.

### Conferencing and Collaboration to Simplify Your Meetings

CONFERSAVE has enabled customers to automate and simplify components of their critical business processes. By partnering with CONFERSAVE, you get the world's most advanced audio and Web conferencing and collaboration services. Whether you want the ability to initiate audio conference calls any time, from anywhere or conduct compelling, professional Web presentations with participants from around the world, CONFERSAVE offers the communication solutions you need.
